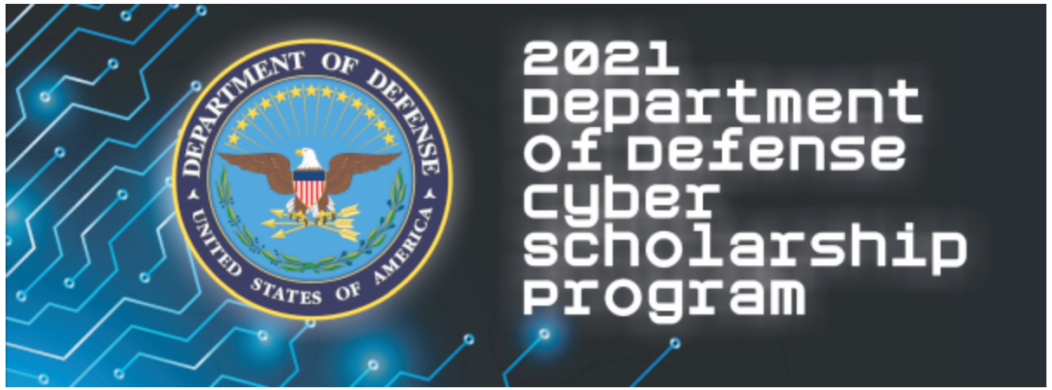
Announcing the DoD Cyber Scholarships for 2021!

November 19, 2020 author: Ray Trygstad



The U.S. Department of Defense is offering Cyber Scholarships to U.S. citizens who will be Juniors, Seniors, or graduate students in the fall of 2021. Because we are a ***National Center of Academic Excellence in Cyber Defense Education***, you may be eligible to apply. This is a one-year scholarship covering full books, tuition, and a $25,000 stipend for undergraduates or a $30,000 stipend for graduate students. The scholarships are renewable but require a new application each year. After graduation, scholarship recipients will work one year of federal service
