

## Minors in Information Technology and Management

---

The IIT School of Applied Technology offers the following undergraduate Minors in Information Technology & Management. All minors are 15 credit hours. All but one of the courses are offered at the Main Campus or online; ITM 448 is currently offered only at the Rice Campus due to laboratory requirements but bus transportation is available from IIT's Main Campus.

### Information Technology & Management:

- ITM 301 Introduction to Contemporary Operating Systems and Hardware I
- ITM 302 Introduction to Contemporary Operating Systems II
- ITM 421 Data Modeling and Applications
- ITM 440 Introduction to Data Networks and the Internet
- ITM 471 IT Project Management

### Information Security:

- ITM 421 Data Modeling and Applications
- ITM 428 Database Security
- ITM 440 Introduction to Data Networks and the Internet
- ITM 448 System and Network Security
- ITM 478 Information Systems Security Management

### Information System Administration:

- ITM 301 Introduction to Contemporary Operating Systems and Hardware I
- ITM 302 Introduction to Contemporary Operating Systems II
- ITM 440 Introduction to Data Networks and the Internet
- and choose six hours from the following:*
- ITM 451 Distributed Workstation System Administration
- ITM 452 Client-Server System Administration
- ITM 454 Operating System Virtualization
- ITM 456 Introduction to Open Source Operating Systems
- ITM 458 Operating System Security

### Information System Network Management:

- ITM 440 Introduction to Data Networks and the Internet
- ITM 441 Network Applications and Operations
- ITM 448 System and Network Security
- ITM 471 IT Project Management
- and choose one of the following:*
- ITM 456 Introduction to Open Source Operating Systems
- ITM 461 Internet Technologies & Web Design

### Internet Application Development:

- ITM 311 Introduction to Software Development
- ITM 411 Intermediate Software Development
- ITM 461 Internet Technologies & Web Design
- ITM 462 Web Site Application Development
- and choose one of the following:*
- ITM 465 Rich Internet Applications
- ITM 466 Web Services and Service-Oriented Architectures
- ITM 469 Topics in Application Development
